## Kansas—Its Constitution.

The harsh disposition on the part of Southern State Conventions to condemn the conduct of Gov. Walker, in relation to his administration of affairs in Kansas, is another trumpet-tongued proclamation of Pro-Slavery injustice. Long ago the treatment which Gov. Reeder suffered at such hands, made it sufficiently evident that no elements of humanity would be tolerated by Ruffian Democracy, in the gubernatorial dispensations of that distracted territory. Some petty Nero, unscrupulous from wretched despair, and remorseless from countless crimes, who can without hesitation render his hands in iniquity, and receive the wages thereof with stimulated inhumanity, is the proper tool of a be-ottled faction, which seeks to nourish the sins of utter barbarism among the blossoming tokens of civilization, and upon a virgin soil.

The adherents of the Slave-holding interests at the South have been lately sore dismayed at indications of an undesirable moderation in the doings of the executive authority of Kansas. Governor Walker, who entered that debatable land at a critical period of its history, has given his warmest friends occasion for sober complaint, by the steps he has seen fit to take in view of a settlement of the difficulties which have, as yet, never ceased to dispute the progress of prosperity within those borders. His offenses are three in number:

1. He has made no account of the enactments and provisions of the recent bogus legislature—so obnoxious and unfair to the Free-state settlers.

2. He has announced his determination of submitting the future State Constitution of the Territory to the test of a popular vote.

3. Whatever Constitution shall be thus approved, he pledges himself to recommend to Congress, in such a manner, if possible, as to insure its adoption.

The anxiety produced by these flagrant concessions to the foes of Slavery and of its sister-brother, Sham-Democracy, has hurried fiercely awake, but is already subsiding. Governor Walker has been denounced, and even threatened with speedy removal.—Southern chivalry has frothed at the mouth, and flourished its sword as usual. Those who care to blush for such things, have not been spared the pain of hearing a fair share of abuse against Abolitionists and the promoters of Black-Republicanism. But suddenly the matter of vexation wears a new face. Politicians, well instructed in the policy and system of the administration, begin to show themselves in favor of the measures of Walker. Contrary to expectation, the Pro-Slavery press assumes a tone of magnanimity!

It is in this condition of affairs that the New York Herald pretends to discover the immediate adjustment of the contentions of which our Western frontiers have been the sad scene. Over the same developments the Washington Union—after recovering from a spasm of unfeigned horror—falls into unfeigned raptures. A jubilant article in the columns of that journal, speaks with confidence of Mr. Buchanan's probable policy; assents heartily to a trial of the ballot in the case; declares that Southern prejudice must yield to the decree, if slavery be ejected from the boundaries of Kansas; and willingly, of course, regards the question as one of isothermal merit, in consequence whereof slavery in the future, by the natural laws of heat and cold, will come to be restricted to its appropriate latitudes.

Such language, from such a quarter, is provocative rather of suspicion than of satisfaction. We will confess ourselves joyfully disappointed if these harmonious results flow from the turbulent springs of sectional machinations. What peculiar and despicuous requisitions have been contrived to sap the strength of the settlers of the North in Kansas we do not affect to comprehend. As a probable, because common, line of action, we expect to see the Free-soil electors debarrd from the privilege of the ballot.—Every injustice can be perpetrated in a region where national forces are strained to the protection of anarchy and misrule.—Though we trust, in the wisdom of time, to hail Kansas as a free State, we can entertain no hopes of such an event, while her government is in the hands of the enemies of Christian Freedom!

PERILOUS BALLOONING.—An aeronaut made a balloon ascension from Erie city on Thursday last, attempting to cross over to Canada. The wind changed after he had gone to within six miles of the shore, and blew him back towards the American side, when he descended into the lake, about midway. The aeronaut was soon immersed up to his middle in the water, from which position he was rescued by the boat of the steamer *Albatross*. The balloon was made fast to the boat, that it might be towed to the propeller and preserved, but the machine began to fill again, and the wind freshening, the position of the boat and the balloon was changed, and the aeronaut and himself flying through the air, were seen to descend into the water. The propeller took the aeronaut into Detroit.

## LOCAL NEWS.

From the rapid increase of private equipages along our streets and drives, we infer at once that the tide of transient residents has set more strongly to this place, and that the fine weather of the last two or three days has been duly enjoyed. The South Western winds, long looked for have at last resumed their sway, and sunshine and summer are the consequence.—Were the duties of our office less constant we should be happy to welcome their return with day-long rambles. As it is, with a doll quill in hand, we wish the greatest pleasure to all who find more favorable opportunities of relaxation.

## Redwood Library.

We are authorized to state that the Directors of this Library have arranged to open it, on and after Monday next, daily, for visitors, from 10 o'clock until 2 o'clock; and also as usual on Tuesday, Thursday and Saturday afternoons, for the delivery and the receiving of books—from 3 o'clock until 5 o'clock.

We cannot refrain from expressing our approbation of this step toward facilitating access to the fine old library on the Hill.—In an article of some weeks since, we laid particular stress upon the need which is constantly arising for a place of literary resort. There is but one such place at all adequate to the wants of the community, and every reading man will thank the Directors of it for placing it more completely at his disposal.

Does it pay to gravel roads on the clay? Much of the gravel that is spread on the roads of this Island is made of slate stone which grinds into mud very readily by the pressure and friction of wheels. In one or two summers it mostly disappears and washes into the ditches, and when the same is placed again on the road it is worth but little more than common earth. Three loads to the rod or twelve hundred and sixty loads to the mile is probably frequently used at a cost of at least one dollar per load or \$1260 per mile. For twice this sum the road may probably be dug out to the depth of two feet and filled with small stones which if kept well covered with earth will make the best kind of road and last for ages, whereas the gravel will want renewing if put on clay or earth foundation, every two or three years. Which is the cheapest and best in the long run of the two methods of treating roads liable to be muddy?

OBSERVER.

The Locksmith's shop of Mr. John Glynn was entered on Wednesday evening and robbed of a large bunch of "Skeleton Keys," being used chiefly for opening iron instruments, besides their value to Mr. Glynn, must be a cause of great danger to the citizens of Newport, while they remain in evil hands. A general interest in their recovery will necessarily be felt, and we hope soon to announce their restoration to the owner, and the detection of the thief or thieves. See advertisement of "Reward offered."

We have received from A. J. Ward's music and book store 4 Sonatas, by A. Diabelli, for young pianists; they are excellent. We have not seen any music of the same character in some time, that we were so much pleased with.

"The Amateur Scottish" we consider very good, the time being well marked all through the piece.

We insert to-day a table showing the changes of the tides. The convenience of such an arrangement will be appreciated by those who are interested in riding upon the beach, in fishing or sailing.

JEALOUSY OF NEW YORK.—STEAMERS TO THE SOUTH.—Hon. W. B. Preston, of Va., Secretary of the Navy under Gen. Taylor, has just returned home to make preparations for a visit to Europe, after having spent several days here in conference, concerning a plan for establishing a direct line of steamers with England, confined to the district of country lying upon the Chesapeake Bay and the waters emptying into it. All the railroad companies and the boards of public works in Virginia have united in the movement, and some of the large corporations in Kentucky and Tennessee have also responded with becoming spirit to the invitation which was originally issued.

The parties already enlisted represent a chartered capital of fifty millions of dollars, and they expect to bring in the influence of other roads to swell that aggregate still more imposingly. Mr. Preston intends before embarking, to lay his plans before the principal railroad companies in Philadelphia, either with a view of concentrating their influence or of so shaping the scheme, that our people may be able to unite in any demonstration before Congress for the share of consideration of which they have heretofore been unjustly denied.

We copy the above from the Correspondent of the Philadelphia North American, who accompanies it with an attack on Collins and New York, charging monopolies, combinations, &c. Go ahead gentlemen.

Letters received by the Niagara from Mrs. Crawford confirm the previous encouraging accounts of the sculptor's health. So much has it improved that his friends in London entertain strong hopes of his recovery. Nothing certain can, of course, be known until the tumor is entirely removed. Dr. Fell repeats his assurance that if the brain be not found diseased, Crawford can recover, and that the farther he proceeds in his treatment, the more he has reason to believe it is not in the least affected. Mrs. Crawford writes that, although when her husband came to London he could not, in consequence of constant and severe pain, endure listening to reading, she now reads to him a great deal every day, and much to his enjoyment.—N. Y. Post.

## Correspondence of the Daily News.

New York, July 8, 1857.

MR. EDITOR:—During the brief interval which has passed since the date of my last letter, many interesting events have occurred. Among them are, the decision of the Court of Appeals, affirming the constitutionality of the new Metropolitan Police law;—the consequent disbanding of the old police by the Mayor;—the measurable cleansing of this "small village," by the vigorous action of the City Inspector, who employed a thousand men and a goodly regiment of carts and horses in the Augean task;—the arrival of some 150 of the tattered remnants of Walker's marauding army from Aspinwall, including 70 sick and wounded, and 18 women and children—and the subsequent "sloping" of the gallant "General" for the South;—the great alarm produced about town by the silly and wicked hoaxing of the sheriff of Richmond county (Staten Island,) by the report of a riot at the new Quarantine Station at Seguin's Point;—and, finally, the shocking and murderous scenes that crowned the celebration of the Fourth, in the Sixth Ward of this city. Of most or all of these things you have doubtless had your readers duly apprised.

In regard to the occurrence last mentioned, it may be proper to state that the affray grew out of a deadly hostility that has long existed between an organization known as the "Bowery Boys," and a gang of desperate ruffians termed the "Dead Rabbits," whose haunts are chiefly in and around the Five Points. The last named began the riot, early on the morning of the 4th, by a furious attack on the public house, No. 40 Bowery, which appears to have been the head quarters of the opposing party. Repulsed and beaten off in this attack, the "Rabbits" retired to their burrows; but late in the afternoon they renewed the battle, whose result exhibits a total of nine killed, and 40 to 50 wounded, many of them severely. Such was the fury of the combatants, that the police were nearly powerless, and some of the victims are known to have had no part or lot in the affray, being mere spectators. It is curious to observe that in the list of killed and wounded, there are evidently four or five foreigners to one American.

Mayor Wood has contrived to worm himself out of two of his ten or a dozen legal involvements, growing out of his connection with, or instigation of, the rioting of his Plug-uglies at the City Hall on the 17th ult. His Honor, however, has got something of a gauntlet to run yet, before he wholly escapes the consequences of his false position and reckless conduct in regard to the new police law.

You will not be surprised to learn that for a week or two prior to the final judgment of the Appeal Court, the profligate and shallow-pated *Herald* of this city seemingly acted upon the impression that its own quick suggestions and impudent assumptions as to the tenor of the then forthcoming decision must necessarily exert a tremendous effect upon the minds of the Judges in shaping that decision—the *Herald* assuming that "of course" there was no other way for the Court to do but to denounce the law as wholly unconstitutional, oppressive and outrageous—and then, says the *Herald*, "it will be the duty of the city magistrates to deal with the Metropolitan police as rioters." This specimen of Hervey good, the time being well marked all through the piece.

The new Tariff, by which there is an average reduction of 5 to 6 per cent. in duties on foreign imports, went into operation on the 1st inst. On *liquors* from abroad, there will be a much greater reduction. In anticipation of these reduced rates, a vast amount of foreign goods had accumulated at this port, on most of which the payment of duties was deferred till the 1st, when the large amount of \$378,500 was paid in at the Custom House in a single day, in place of some \$1,500 or the day previous. Among the goods thus accumulated were above ninety thousand hogsheds of W. I. sugar, and some thirty thousand hogsheds and barrels of molasses.

Although no decision has yet been had in the Cunningham-Burdell marriage case, (the Surrogate having assented to the appointment of a Commissioner to California, on a single point of testimony, which must needs involve some two months delay,) the proceedings in the case are substantially closed. And I think there is ground for half a hope that Madame C. will be defeated. At the summing up by counsel, Mr. Clinton, on behalf of Jewell, made an eight hours' speech, declaring the marriage to have been fully made out, and his client's claim to be regarded as Dr. Burdell's widow legally established. But Mr. Tilden, for Dr. B.'s brothers and other heirs, followed with a scathing reply, exposing the glaring and manifold contradictions in Miss Augusta's testimony, and the wretched character of most of the evidence chiefly relied on to prove the marriage. The Surrogate, A. W. Bradford, Esq., is one of the ablest lawyers in the city; and his decision of the case will be looked for with great interest, not only as a specimen of his talent and sagacity, but as relating to a case which has excited attention and remark throughout the Union and even in foreign lands.

You may have noticed in a late number

of the "Knickerbocker" Magazine, a rather readable sketch of life in Newport, under the title of "The Masquerade of Hate." I have no idea who is the author, (perhaps you may know,) but I perceive that the *Evening Post*, which is a journal of acknowledged literary taste and ability, reprints the article assigning to it the post of honor on its first page.

The sudden death of the Hon. Wm. L. Marey, at Ballston, has produced a marked sensation among all classes of our citizens. Mr. M. was thrice elected Governor of this State.

The graceful amplification of women's gait, which has been going forward for some time past in the fashionable world, seems to be still in progress; and I begin to think the women-folks have made up their minds to submit to no restriction whatever in that respect. Well—I rather like their spirit; but the dear souls should remember that rail-cars, church-nisles, and even the sidewalks of Broadway and the Fifth Avenue, have their limits! RAMBLER.

## GENERAL NEWS.

ALARMING RAILROAD ACCIDENT.—On Wednesday evening last, about six o'clock, a frightful accident occurred on the Cleveland and Pittsburgh railroad, which resulted in the serious injury of several passengers, and the narrow escape of James Black, Esq., and Mr. B. H. Ober, of this city, who were on the train. The accident occurred near Wellsville, about forty miles West of Pittsburgh. Mr. Ober came down from Cleveland, and Mr. Black came over the Stenberville and Indiana road from Columbus, meeting at the Yellow Creek Station, where they got in the same car. The train had got under full speed, running at the rate of forty miles an hour, and was passing a way station, when from some unknown cause, one of the trucks of the front passenger car was thrown off the track, the car whirled completely round, bringing the passengers' faces toward the rear of the train, and completely smashing the car by coming in contact with a gravel train which was standing on a siding at the station.

Messrs. Black and Ober were sitting on the same seat, and as the car turned over they were thrown against the opposite side with great violence, among the broken seats and other fragments of the demolished car. Strange to say, the only injury sustained by Mr. Black were a few slight cuts on the arm, which were forced through a window, while Mr. Ober came off with a cut nose and being knocked insensible for about five minutes; but others were more seriously injured, among them the brakeman, who was on the platform of the first car, had both his thighs broken, besides receiving internal injuries; from which he could hardly recover. Two others were badly cut about the head, and a number received slight injuries. There were about thirty passengers in the car. The locomotive and two baggage cars were uninjured. The second passenger car was driven past the wreck of the first, and got on the track on the other side.—It was badly broken in front, and the peas torn from their fastenings by the force of the collision. The third car was run off the track; and they all escaped uninjured.—*Lancaster Express* July 6.

## SPECIAL NOTICES.

### ALPINE HAIR BALM

Restoring Gray Hair to its Original Color.

WARRANTED TO CURE Baldness, Scurf, Dandruff, itching and all diseases of the scalp. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the Hair, and gives it a natural color without the use of Hair Dye.

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off, composed of Oils, Alcohol and other deleterious materials, and all that do not give the Hair a natural color, but sides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy. It is soothing and emollient, always all irritation of the scalp, thereby stopping that troublesome itching. It cures Dandruff and Scurf, and when the Hair has turned gray will bring it back to its original color, be it Black, Brown or Auburn. It makes the Hair soft and glossy—prevents it from falling off, as will be seen by using this Balm for only a few days—life will be given to the roots of the Hair, and growth will soon appear.—Growth does not take place at the end of the Hair, as will be seen in persons who have their Hair dyed. If you examine gray hair that has been colored for a week, you will find towards the roots that the hair has come out gray, hence it is necessary to have the color at the roots of the hair healthy, that the whole hair may be a natural color. Each hair has a root in the skin, and is of itself a hollow, gray tube, through which there is a constant circulation of the pigment from the root.—When this pigment or coloring matter dies out, it leaves the hair hollow and it becomes gray. To invent a Balm that would produce this pigment has become the study of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring the Hair to its natural color by making new the coloring matter in the roots of the hair.

It is a mistaken notion that oil or grease will restore the hair, as nothing can be more injurious. The Alpine Hair Balm, will restore the skin and save the hair of those who have been sick with fever or any disease.

#### ANOTHER RIOT IN NEW YORK—TWO MEN SHOT—ANOTHER SLAYER CAPTURED.

NEW YORK, July 9.—Another riot occurred last night in the 11th Ward of MacKerville—the scene of the robbery on Sunday of the Second Avenue cars. The police were attacked, and used their pistols in defence. Two rioters were shot, and the disturbance was finally quelled.

The barque *Pandula*, which arrived here on Tuesday from the coast of Africa in charge of a British prize crew, was yesterday libelled, and is now in custody of the United States Marshal.

Advices have reached here of the seizure on the African coast, of the brig *Adams* Grey, on suspicion of being a slaver. The brig formerly hailed from New Orleans. She was captured by the British cruiser *Prometheus*.

The Board of Councilmen, last evening, voted, by a large majority, to surrender the police stations to the Metropolitan Commissioners.

#### MOVEMENTS OF PROMINENT MEN.

BALLSTON, SPA, N. Y., July 9.—Ex-President Pierce, Ex-Gov. Hunt, Postmaster Brett of Washington, and several other distinguished gentlemen, arrived here on the morning train from Albany, on a visit to Mrs. Wm. L. Marey, and have taken rooms at the Sans Souci Hotel. We understand Gen. Pierce leaves for Boston by way of Springfield on the two o'clock train this afternoon.

**RATHBUN'S** Ambrotype Gallery. At APOTHECARIES' HALL, WASHINGTON ST. (Near the State House). **THE** only place in the city where a good picture can be obtained. The brilliancy and striking life-like expression of Rathbun's Pictures, are daily recommending them to all lovers of Perfect likenesses. The peculiar nature of Rathbun's chemicals, and superior instruments (for which he has spared no expense in selecting) are such as to render his pictures almost nature itself, and they are entirely devoid of that sickly, death-like appearance which is generally attached to Ambrotypes executed by those who do not understand or have no taste for the art. To all those who may want a good picture, whether Ambrotype or Melanotype, I would extend to them an invitation to give him a trial, and if it is not satisfactory, no charge will be made. A large assortment of every thing pertaining to the profession may be found at Rathbun's Rooms, F. H. RATHBUN, Artist. j37

**COAL**. **LYKENS VALLEY COAL**—The subscriber was the first to introduce Lykens Valley Coal into this market, and it has proved a good family coal. The only objection to it is the clinker and the manner in which it has been shipped for the last two or three years. I have now to offer the Lykens Valley coal in all respects, and superior, as regards both the manner of shipment and the clinker. Certain interested parties have endeavored to co-erce the dealers in this and other markets into the purchase of the L. V. coal of them, by means of advertisements headed "Caution," as though dealer who do not purchase short mountain (sold for Lykens Valley) of them, were palming off an inferior article upon the public. Persons unacquainted with the Lykens Valley Coal can examine and test it with the Short Mountain (Lykens Valley) coal, at Wm. G. Peckham's or on the wharf of the subscriber, Wm. J. SWINBURNE, Opposite foot of Market-st. j37

**PURE BOURBON WHISKY**. State Assayer's Office, 16 Boylston Street, Boston, May 29, 1857. H. C. THACHER, Esq., 13 Central wharf, Boston. Dear Sir—With this you will receive the detailed results of analysis of two samples of Bourbon Whisky, manufactured by Mr. J. H. Cutter, of Louisville, Ky. It will be seen that these Whiskies are pure and unadulterated, entirely free from any mineral or vegetable drug or poison, and as such I can recommend them for medicinal use. Respectfully, A. A. HAYES, M. D., Assayer to State of Mass. State Assayer's Office, 32 Somerset Street, Boston, May 29, 1857. H. C. THACHER, Esq., 13 Central wharf, Boston. Dear Sir—I have made a chemical analysis of the sample of "Old Bourbon Whisky" you brought to me, made by John H. Cutter, of Louisville, Ky., and find that it is pure from all poisonous matters, and has 19 per cent of absolute Alcohol in it—and about 4 minims of Saccharine matter to the gallon. It is a pure and unadulterated Liquor, and is suitable for medicinal use. Respectfully your obt. servt, CHAS. T. JACKSON, State Assayer. A constant supply of this Whisky can be obtained of the Agents. Be sure that you obtain John H. Cutter's Old Bourbon Whisky. H. C. THACHER, 13 Central wharf, Boston. A full assortment of Children's Hats, Bonnets, Blouses, Skirts, &c. S. W. SALISBURY & SISTER. June 24, 1857—1 m SPANISH GOLDEN MIXTURE. FOR FEMALES. j34

**THIS** elegant vegetable compound has long been used by the Spanish ladies, for regulating the derangements of the female system, and for improving the general health and beautifying the complexion. It is a warming, stimulating and tonic, and is a powerful purifier of the blood, quickening the circulation, imparting color to the lips and cheeks, brilliancy to the eyes, and a clearness and freshness to the complexion not attainable by any other means. It will remove female obstructions when all other remedies have failed, and a few doses taken for one week before the monthly course, will prevent all obstructions from any cause whatever. This may seem incredible, but try it. If it fails in any case the price will be refunded. Send for any part of the country. Price \$3.00 per bottle. Sold by AMOS PALMER, M. D., chemist and apothecary, (successor to Andrew Sawyer), No. 213 Westminster st., Providence, who is sole agent; the genuine to be had only at his store. Newport, HAZARD & CASWELL. j38-d&w-ly.

**NOTICE**. **The Greatest Discovery of the Age**. **PROFESSOR WOOD** offers for sale a perfect HAIR RESTORATIVE. It is a short time restores the Hair, which has become gray prematurely, to its original color—brings it out where it is gone, and arrests when it is falling off—cleanses the head of dandruff and itching—restores all cutaneous eruptions, and renders the scalp perfectly healthy, by restoring the secretory organs to their original vigor and strength, and thus supply nutriment and coloring matter to the roots. It does not dye the hair, but is, in short, a perfect Hair Invigorator and Tonic. To the young, who so much admire the beautiful locks and ringlet, he feels that he will be pardoned if he offers the advice suggested by long study and extensive observation. It is a powerful all engendering and stimulating agent for the hair, and keeps always upon the scalp a bottle of the Restorative for occasional use and we can safely predict, that henceforth silver locks will be upon bald heads. Let the dark eye be ever so piercing, and the teeth be those of pearl—still, if the natural fluids be withheld from the hair, and a consequence becomes first dead and harsh, then gray, or falls off nature will be robbed of more than half its charms; as it is a secret remedy for those who are gray, as well as those who are bald, all must see the propriety of making only such application to the hair and scalp as is calculated to preserve both in a healthy state. From the editor of the Real Estate Advertiser No. 2 School Street. Boston, March 20, 1855. Prof. Wood—Dear Sir—Having become prematurely quite gray, I was induced some 6 weeks since, to make a trial of your Hair Restorative. I have used less than ten bottles, but the gray hairs have disappeared; and although my hair has not fully attained its original color, yet the change is gradually going on, and I have great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which, before was harsh and dry, and it has ceased to come out as formerly. Respectfully yours, D. C. M. RUPP. Milford, Worcester Co., Mass., Nov. 13th, 1855. Prof. O. J. Wood—Dear Sir—I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As far back as 1836 my hair commenced falling off until the top of my scalp became bald and smooth as glass, and it has continued to fall off for a great many years, notwithstanding I have used many celebrated preparations for its restoration. Seeing your advertisement I was induced to give your article a trial, and to my utter astonishment I found after a few applications that my hair became firmly set and assured by very glossy and beautiful appearance; and at the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches in length, and growing very fast. Yours truly, J. HENRY GOODRICH. Carleton, N. H., June 27, 1856. I have used Prof. O. J. Wood's Hair Restorative, and as I thought permanently gray, but by the use of his Restorative, it has resumed its original color, and I have no doubt permanently so. SIDNEY BRISSE, Ex-Senator, United States, O. J. WOOD & CO., Proprietor, 312 Broadway, New York, and 114 Market Street, St. Louis, Mo. Sold by HAZARD & CASWELL. m23-17.
